PROFESSIONAL SUMMARY

Recent Master of Information Technology graduate with specialisation in Internetworking from University of Technology Sydney. Bringing 9+ years of IT operations experience across cloud infrastructure, systems administration, and enterprise solutions. Proficient in Azure, AWS, VMware, networking, and Linux/Windows administration. Demonstrated expertise in designing scalable cloud architectures, optimising system performance, and leading technical projects. Seeking graduate opportunities to apply technical knowledge and drive innovation in a dynamic organization.

EDUCATION

Master of Information Technology (Major: Internetworking)

- University of Technology Sydney, Sydney, NSW | Completed 2026
- GPA: 6.19/7.0 | WAM: 82.5% | 96 Credit Points
- Key Coursework & Achievements:
- Infrastructure for Cloud Computing | Network Security Appliances | Software Defined Networks | Advanced Routing Principles | Multilayer Switched Networks | Systems Administration | Project Management

Bachelor of Engineering – Computer Science

- Visvesvaraya Technological University (VTU), Bengaluru, India | 2012

PROFESSIONAL EXPERIENCE

Administrative & Logistics Officer (IT-Enabled Operations)

Dubai Petroleum Establishment, Dubai, UAE | June 2018 – January 2024

- Managed IT-enabled workflows and digital documentation for 110+ personnel, serving as first-line technical contact for internal staff queries. Maintained version-controlled SOPs and compliance records in controlled operational environments. Developed risk assessments, operational procedures, and access control protocols aligned with industry standards.

Systems Administrator / Server Manager

Webglorimedia Solutions Pvt Ltd, Bengaluru, India | July 2014 – August 2017

- Provisioned and configured cloud servers hosting 20+ web applications, implementing Nginx load balancing and caching strategies. Optimised web application performance, reducing page load times and improving user engagement. Conducted technical audits and troubleshooting, achieving 99.5% uptime SLA. Implemented SEO strategies and monitored analytics, increasing site traffic by 25%.

Administrative & Logistics Officer

Paragon Offshore, Doha, Qatar | September 2015 – March 2016

- Utilised Oracle ERP software for daily reporting, workforce coordination, and logistics tracking. Managed emergency communications and maintained accurate digital records for offshore operations.

KEY PROJECTS & TECHNICAL ACHIEVEMENTS

Hybrid Cloud Infrastructure Design (SmartV)

- Designed and deployed hybrid cloud architecture integrating VMware vSphere 8 (on-premises) with AWS cloud (EC2, EKS, S3, RDS). Implemented high availability features including HA, DRS, vMotion, and vSAN. Configured AWS Route 53 failover and EKS auto-scaling, achieving 99.98% uptime and RTO < 15 minutes. Implemented Prometheus and Grafana for observability and CloudWatch monitoring.

AI-Based Mental Health Platform (Peermindful)

- Built scalable mental health support platform for university students using Microsoft Azure. Deployed workloads on Azure Virtual Machines applying cloud fundamentals (scalability, availability, disaster

recovery). Integrated Microsoft Bookings for appointment scheduling and implemented end-to-end Azure infrastructure integration with Microsoft services.

Location-Based Education Platform (Edumap.io)

- Designed and deployed scalable platform serving university students. Integrated 1,000+ digital resources with one-click access, boosting student engagement by 30%. Secured \$20,000+ in cloud services via Microsoft BizSpark and IBM SoftLayer. Managed cloud deployment, resource migration, and performance optimisation.

TECHNICAL SKILLS

- **Cloud & Infrastructure:** Microsoft Azure (VMs, App Services, SQL/Cosmos DB, Blob Storage, Azure CDN, Backup), AWS (EC2, EKS, S3, RDS, Route 53), VMware vSphere/vCenter, Microsoft 365
- **Networking & Security:** TCP/IP, DNS, DHCP, Subnetting, Routing & Switching, VPNs, Firewalls, SDN, AAA/ACL, Intrusion Detection, Network Security Appliances.
- **Systems & Administration:** Windows/Linux Admin, Nginx, Backup & Disaster Recovery, Cloud Migration, Systems Administration.
- **Development & Tools:** Troubleshooting, User Support, HTML/CSS/JavaScript, Git, CMS Deployment, Performance Monitoring

PROFESSIONAL CERTIFICATIONS & QUALIFICATIONS

- Google IT Support Professional Certificate (2023)
- Mental Health First Aid Certification (2024)

LEADERSHIP & VOLUNTEERING EXPERIENCE

- President, Red Cross Society (UTS) – Planned and led community events, coordinated teams, and managed large-scale initiatives.
- Team Leader, Study NSW Welcome Desk – Trained volunteers, managed operations, and provided support to international students.
- Team Leader, Bluebird Pantry (UTS) – Supervised stock management, student check-ins, and queue management.
- Gender Equity Ambassador, WiEIT (UTS) – Facilitated STEM workshops and mentoring with teachers and students.
- Volunteer, Sydney Marathon – Assisted with registration, logistics, and administrative tasks for 15,000+ participants.

SOFT SKILLS & COMPETENCIES

Problem-Solving | Project Management | Risk Assessment | Technical Documentation | Stakeholder Communication | Cross-functional Collaboration | Leadership & Team Management | Adaptability | Attention to Detail | Customer-Focused Approach
